MICROSHIELD® 2% CHG wash mitts

Patient washing, presurgical patient preparation and full body decontamination

Product description

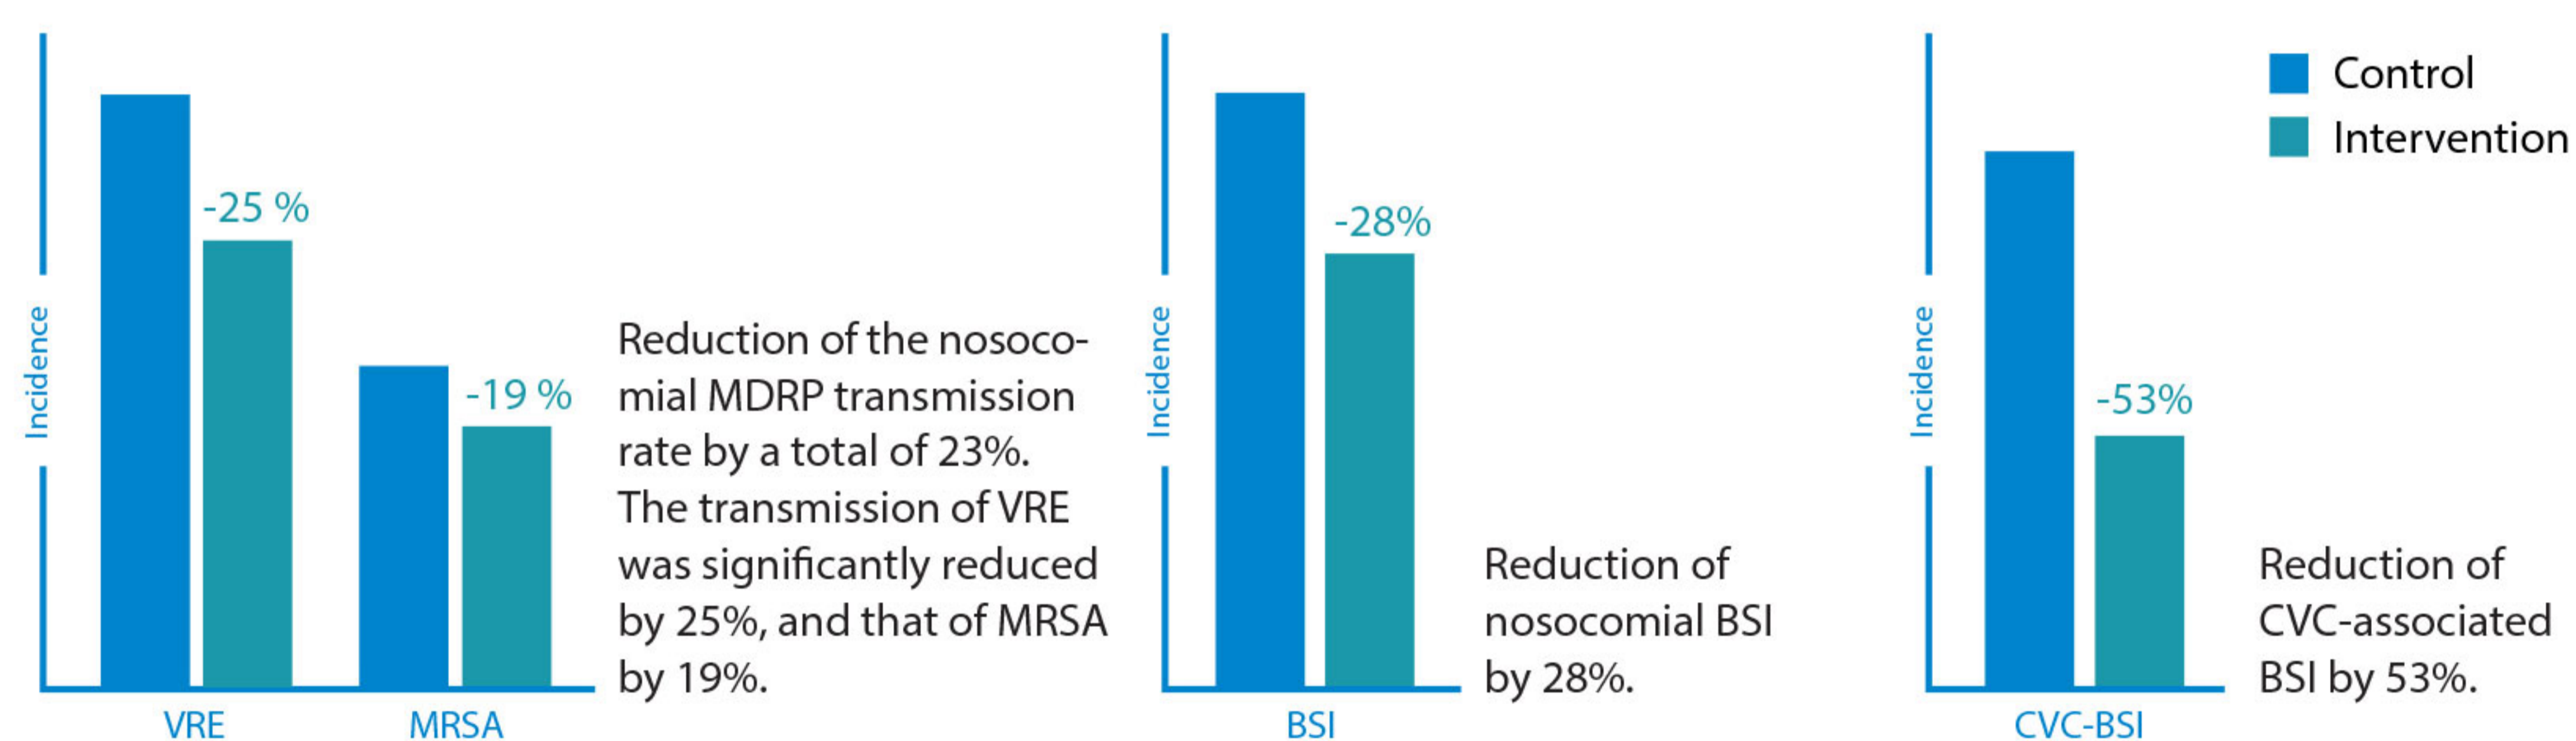

MICROSHIELD® 2% CHG wash mitts are dermatologically tested, ready to use, single-use antimicrobial wash mitts for pre-surgical preparation of patients as well as whole body cleansing without water.

The wash mitts are made of a tear-resistant and soft non-woven fabric, which is impregnated with a 2% Chlorhexidine digluconate solution. Rinsing with water after use is not necessary.

Preventive washing with Chlorhexidine

Climo M.W. et al., 2013: A comparative study of more than 7,000 intensive care patients demonstrated that daily full-body washing with decontaminating wash mitts can reduce both the transmission rate of VRE and MRSA as well as blood-stream infections (BSI) compared to conventional washing.¹

Microbiological efficacy

Test	Test organisms	Contact time
EN 13727	P. aeruginosa	1 min
EN 13727	S. aureus	1 min
EN 13727	MRSA	1 min
EN 13624	C. albicans	1 min

Our plus

- Effective against bacteria (incl. MRSA) and yeasts
- Ready to use, usable on both side and no rinsing is required
- Can be warmed in microwave or heating cabinet
- Added with skincare properties
- Dermatologically tested
- Glove form for easy application
- Perfume-free

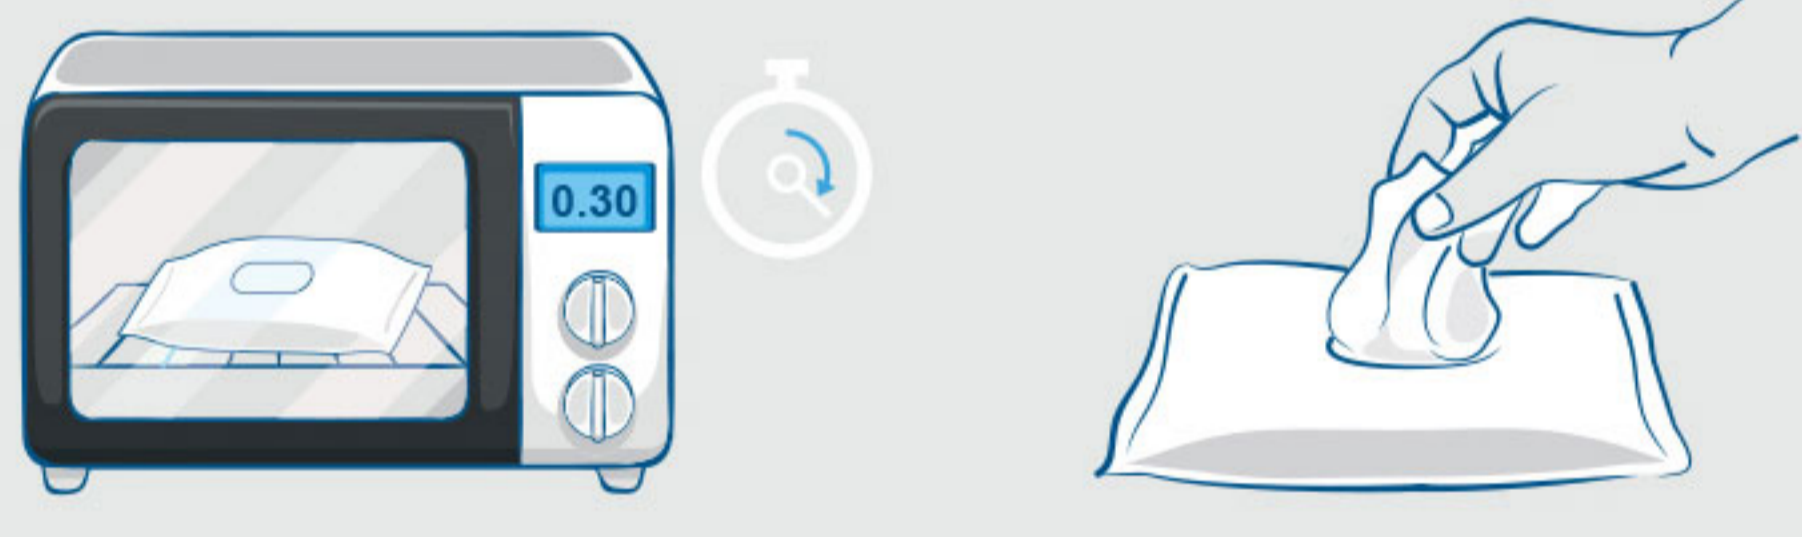

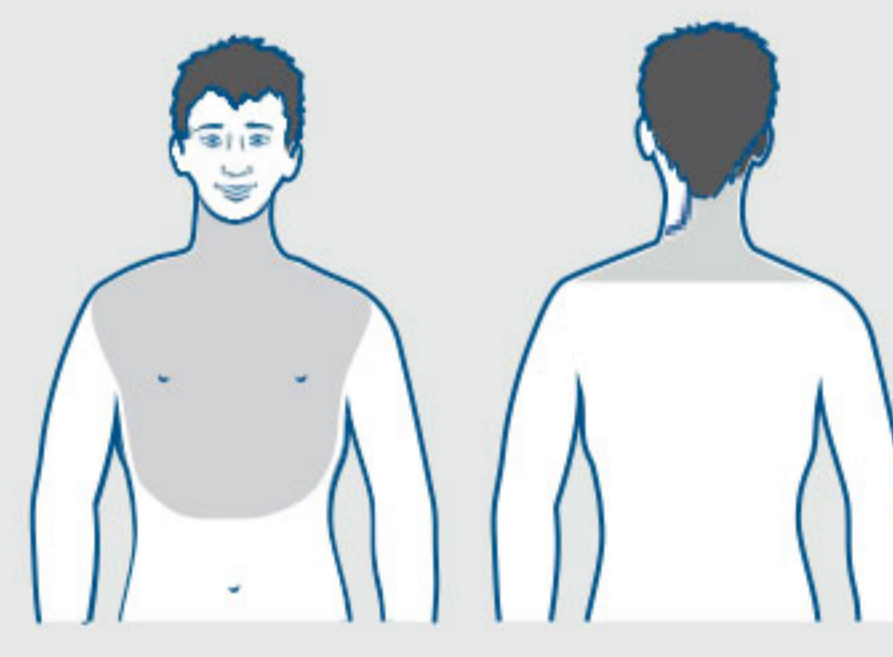

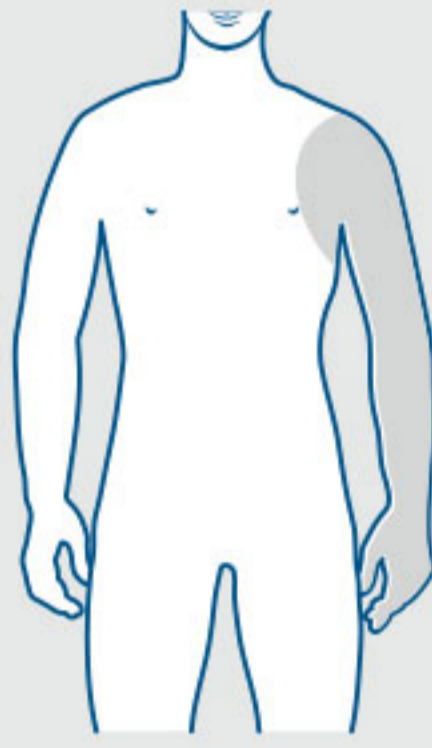

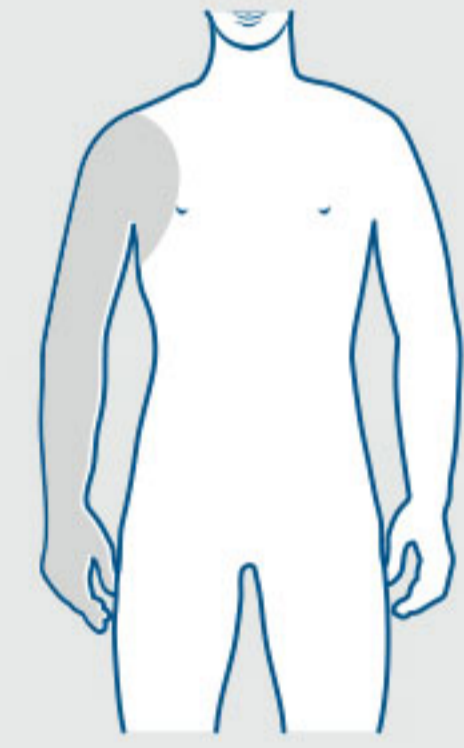

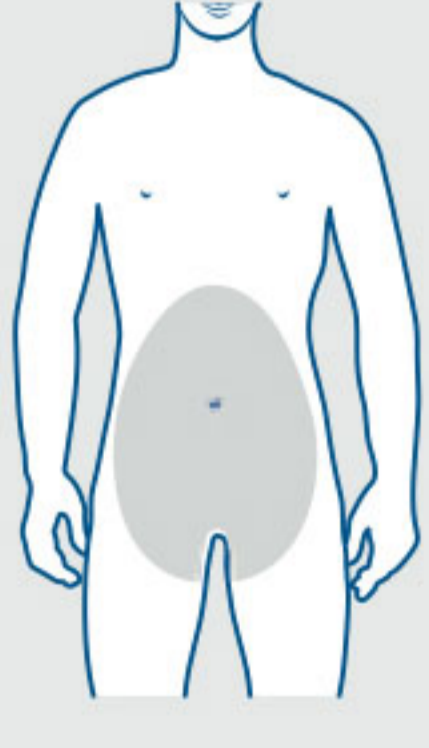

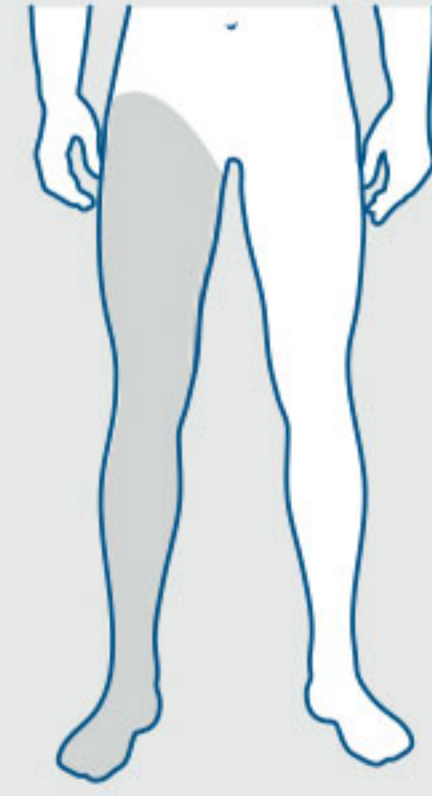

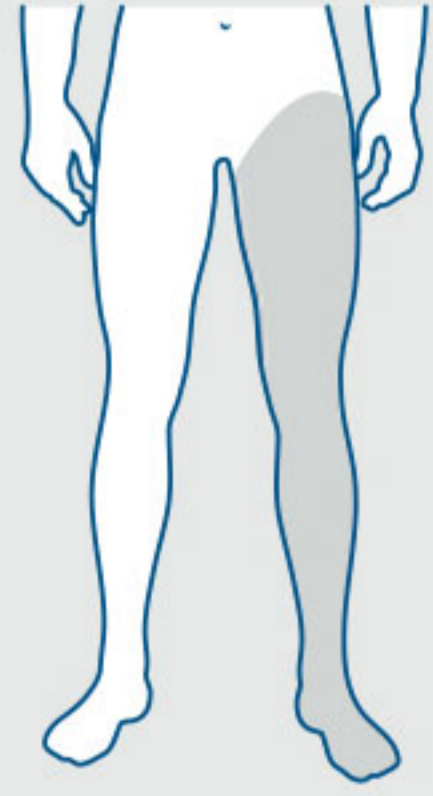

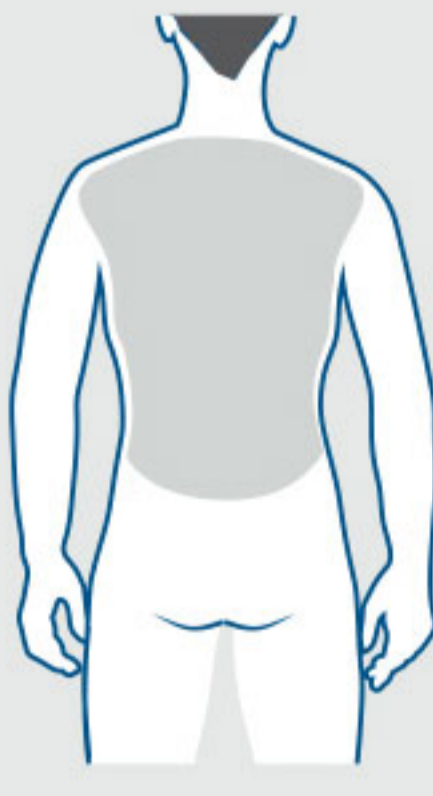

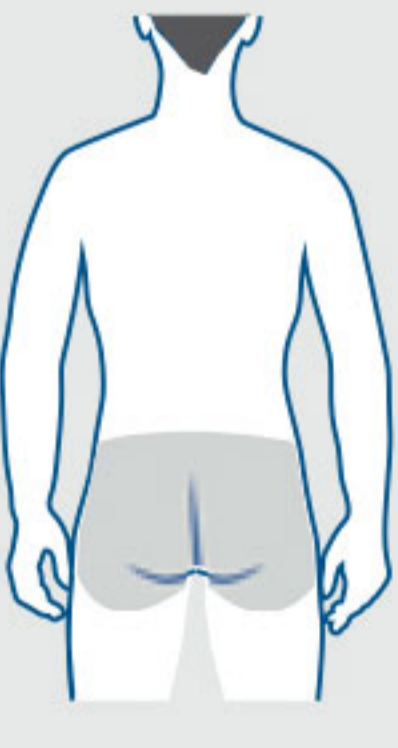

¹Climo M.W. et al., 2013: Effect of Daily Chlorhexidine Bathing on Hospital-Acquired Infection. Use biocides safely. Always read the label and product information before use

Application notes

Open the softpack and take out a wash mitt, as required. Clean the skin and leave the impregnation solution on. Make sure the skin is completely moistened, especially in the area of the armpits, areas between the fingers and between the toes as well as other skin folds. Rinsing with water is not necessary.

- + use a single mitt per body area according to the diagram.
- + use at room temperature or warmed (microwave or warming cabinet).
- + no rinsing necessary.

<p>Preparation</p>  <p>If required, the wash mitts can be warmed in the microwave for 30 seconds/600 Watt or in the heating cabinet.</p> <p>Open the packaging and take out the first mitt. Before use, ensure that the mitts are not too hot.</p>	<p>Mitt 1</p>  <p>Use mitt 1 to clean the neck and chest.</p>	<p>Mitt 2</p>  <p>Use mitt 2 for the right arm and armpit.</p>	<p>Mitt 3</p>  <p>Use mitt 3 for the left arm and armpit.</p>	
<p>Mitt 4</p>  <p>Use mitt 4 to clean the abdomen and crotch (front).</p>	<p>Mitt 5</p>  <p>Use mitt 5 for the right leg.</p>	<p>Mitt 6</p>  <p>Use mitt 6 for the left leg.</p>	<p>Mitt 7</p>  <p>Use mitt 7 for the back.</p>	<p>Mitt 8</p>  <p>Use mitt 8 to clean the lower abdomen (back).</p>

Special instruction: Do not use in case of known or suspected allergies to chlorhexidine digluconate or any of the named ingredients. Keep away from eyes, ears and mouth. Not suitable for infants. **FOR EXTERNAL USE ONLY**
