Clean solution for your professional hands.

Anywhere where people can spread germs with their hands during their work, special care must be taken with regard to hygiene. This applies to contact and handling with food or other products as well as direct skin contact with patients during medical treatment or care.

Protection against contamination:
You have it in your hand."

Hygienic hand washing – clean, antimicrobial, nourishing.

Proper hand hygiene doesn't just start with disinfection – it starts with hand washing. primasept wash® is a washing lotion with a triple effect: effective cleaning, antimicrobial efficacy and skin care.

hygienic handwash

against bacteria, incl. salmonellae & listeria

against enveloped viruses

primasept® wash

- effective against bacteria (incl. Salmonella and Listeria), yeasts and enveloped viruses (incl. HBV, HIV, HCV, Vaccinia)*
- gentle soap-free wash lotion with 4 % Chlorhexidine
- excellent cleansing power
- contains skin nourishing and moisturising ingredients
- free of colour and perfume

* acc. to EN 1499 / EN 13727 / EN 14476 / EN 1276

Use disinfectants safely. Always read the label and product information before use.

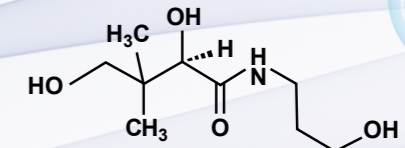

The content is what matters.

In everyday life, your hands are particularly stressed: The danger of chapped, rough skin is great. Your hands are your most important tools and thus need special protection and care – day after day. primasept® wash is not just a hand wash lotion, but offers your skin the extra care it deserves.

Allantoin

Allantoin – has a soothing effect, provides moisture and supports cell renewal.

Panthenol

Panthenol – enhances the regeneration of the skin and soothes skin irritations. Improves skin suppleness and smoothness.

Cleans, protects and nourishes in just one application."

nourished with allantoin and panthenol
